

AV BOXES

TABLE

TB ST

- Lid with the same material as the table where is installed.
- Handy connection because width panel
- Full customization of the box in terms of connectors, texts, logos and colour, allowing full integration with the aesthetics of the room.
- Designed and manufactured by Pinanson S.L. in Spain

Applications

- Room where is required to have access to video, audio, data and power connections in a box recessed in the table.
- Spaces where the connection box is required to be “camouflaged” on the table
- Facilities in which keeping the boxes integrated with the decoration of the room as well as high durability are important factors.

Special Characteristics

- They are boxes to be screwed under table in an integrated way in the installation, using the same table material as lid and keeping hidden when it is not being used.
- Handy connection thanks to the breadth in panels
- Height adjustable connection panel
- Handy connection thanks to the breadth in panels
- The fixed wiring is made by means of an access window in the bottom of the box.
Custom manufacturing: connectors, color, according to the room aesthetics, texts, logos
